DETAILED ACTION

Allowable Subject Matter

1. Claims 28, 48, 49, 52, 55-57, 60, 61 and 64 are allowed.
1. The following is an examiner's statement of reasons for allowance: independent claim(s) 28, 49, 52, 56, 56, and 60 identify a network having components to route a request and replies between two endpoints, the replies contain state information pertaining to the sending endpoint, the network configured to maintain and reassociate state information with subsequent requests, and continually routing state information between the network components to preserve state information.
2. The closest prior art of record, Bayeh, does not teach continually routing state information between the network components to preserve state information. Therefore, independent claims 28, 49, 52, 46, 56, and 60 are allowable over the prior art.
3. Claims 48, 55, 57, 61 and 64 are allowed by the same rational as well as the further limitations added by these dependent claims.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
